BUKH DV 10 L ME

BUKH DV 10 L Marine Diesel for Stern Tube Installation

BUKH's uncompromising and low-priced lightweight diesel develops 10 effective seahorses.
The DV 10 L is the answer to the yacht racing fraternity's wishes, but the engine is also popular with many others who want a simple and low-priced engine installation.
DV 10 L has direct fuel-injection and this means lower fuel consumption and the cold start characteristics are also vastly improved.

A BUKH does not rattle

Minimal tolerances in all moving parts ensure the lowest possible noise level in bearings, gearwheels, pistons and connecting rods.

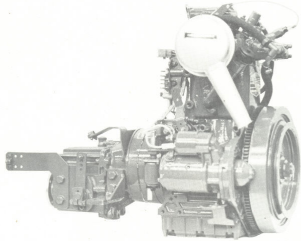
A BUKH has automatic fuel control

Automatic fuel control guarantees that the engine only gets the amount of fuel which the immediate load requires.

A BUKH marine diesel is designed for a rough life at sea.

BUKH

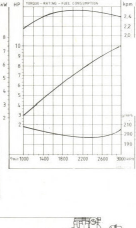
BUKH DV boat engines can now have a second year optional warranty period.



CEMBERCI

TECHNICAL DATA FOR BUKH DV 10 L ME

Max. continuous rating (DIN 6270B) at 50 / p.s. (3000 RPM)	10 HP (7.4 kW)
Engine rotation (looking forward)	Anti-clockwise
Propeller rotation (looking forward)	Clockwise
Number of cylinders	1
Bore × stroke	3.35 × 3.35 in (85 × 85 mm)
Stroke volume	29.41 cu in (482 cm³)
Principle of operating	4-stroke, diesel
Combustion system	Direct injection
Cooling system	Direct seawater
Starter motor	12 V – 1.5 HP – (1.1 kW)
Charging alternator	210 W
Hand start	Rope pull
Inclination, max., fore and aft	18°
Heel, max. continuous	25°
Fuel consumption, full load	0.53 imp. galls./h (2.41/h)
Fuel consumption cruising	0.35 imp. galls./h (1.61/h)
Reverse-reduction, ahead	2.47:1
Reverse-reduction, astern	2.27:1
Net weight	176 lbs (80 kg)



STANDARD EQUIPMENT:

Reverse-reduction gear
Decompression lever
Wet sump lubrication system
Electric start and charging alternator
Centrifugal governor
Seawater cooling with thermostat
Intake silencer with filter
Fuel lift pump
Fittings for remote control
Remote operating panel with:
a) Charging light
b) Lub. oil pressure warning light
c) Cooling water temperature warning light
d) Key switch for start
e) Electric stop
f) Audible warning
Standard set of tools
Bilge pump for lubricating oil
Operating manual

OPTIONAL EQUIPMENT:

2-bl. folding propeller 15" × 10" R
3-bl. fixed propeller 14" × 11" R
700 W charging alternator

Equipment for complete engine installation: See separate list of equipment.

As Motorfabriken Bukh are always endeavouring to improve the engines, specifications mentioned are subject to alterations without previous notice.
