Dear Mr.OrhanCemberci,

I receive your CD today with all the PDF files of various engines. Thank you for sending it here.  
Unfortunately, I did not understand the purpose for which you have sent this CD.

Please tell me the purpose of this CD and what you expect me to do and I will try my best to be of service.

I have visited your site but as I don't understand Turkish, I could not understand the contents.

Pls contact me with details of what you require.

Hi,

My name is Inatio Legorburu from the Netherlands. I was doing some Internet searches and I saw that you recently registered [WWW.ENGINE-CEMBERCI.COM](http://WWW.ENGINE-CEMBERCI.COM)

You are receiving this email because I believe we share a couple of common experiences. If your experience was like mine, then you probably tried out some preferred domain names first only to find that they were already taken, before settling for [WWW.ENGINE-CEMBERCI.COM](http://WWW.ENGINE-CEMBERCI.COM).

And the fact that you have registered a domain name implies that in one way or another you are an Internet Entrepreneur.

And like all Internet entrepreneurs, we are always on the lookout for that near perfect "Shangri-La" business opportunity, that possesses all the good qualities of our favourite Internet business ventures without any of the painful downsides.

I consider myself to be a successful Internet entrepreneur, who has been fortunate enough recently to find his Shangri-La. So if you would like to join me in one of the most successful businesses on the Internet today, please check this out:

<http://www.dutchminds.nl/webmasters>

The business is easy. The products and service are excellent, and I really mean excellent. There is no up front investment or licensing fee, no additional running costs for prospecting and follow-up systems (this system practically runs on autopilot), and you are tapping into a high demand product, i.e. this is a product that people in all countries throughout the world need and use for life!

This is backed by an Inc500 listed company and globally it's growing very quickly. Why is the business so successful? Well, in addition to the reasons above, the market is huge, the price is unbelievably low, and there is NO SELLING involved. After you check out the "private screening" (it's very brief), you will understand why...

<http://www.dutchminds.nl/webmasters>

And having viewed your "private screening", if you still feel unsure as to what this opportunity is all about, just contact me and we will take it from there.

I hope to talk to you soon,

Inatio Legorburu

**Subject:** About your website <http://www.engine->  
Hi again,

My name is Andrew Dean Hyder. I am CEO of Subjex Corporation, the search engine that you submitted <http://www.engine-cemberci.com> to on 11/07/2004. As CEO of a growing Internet company that survived the "dot-bomb", I have had years of hard-core hard-knocks ecommerce experience and combined it with real world psychology on buyer motivation and learned what makes people buy from one web site and not another.

Now that your site is in the Subjex.net search engine, don't make the worst (and most common) e-commerce mistakes everyone else is making. Read this free report generated specifically for you and applied to <http://www.engine-cemberci.com>.

In it you will learn:

- 5 incredibly easy changes you can do to your site (for free) to turn "browsers" into buyers!
- Explode your sales (not traffic) by 500% or more for less than \$30.
- The 3 easy ways to keep people on your web site for more than 30 seconds.
- How to always know exactly what prospects are thinking while surfing your site.
- Shrink your phone staff or call center by 50% while improving your customer's experience.
- Why "live chat" does not work for customer service!
- A plethora of ecommerce gems ...

Please - don't use "follow the pack" approaches or what "advertising" people tell you works - IT DOESN'T WORK! I've lived it; I've done it the wrong way until I was blue in the face. I'm going to share all my experience with you and save you years of work and a small fortune.

Get your free copy of my report, "Forget everything you ever learned about ecommerce - it's all changed!" Internet marketing for you will never be the same. To get it - go to: <http://www.subjex.com/myreport> then please let me know what you thought.

Sincerely,  
Andrew Hyder - CEO

Hello,

How would you like to monitor the equipment inventory of hundreds of websites of your choosing?

Since we occasionally call on your for diesel engines, we wanted to let you know that we have developed a technology for your industry that can assist you and your customers in finding engines, generators and equipment internally, or on your website or the world wide web.

This is especially helpful to brokers as well as retailers.

We can now provide you with your own personal search engine specific to your industry. This is VERY helpful to brokers and retailers since you can use the search engine to search internally without your customers seeing your search results. We customize the search for you... to exclude searches that won't find exactly what you or your customers are looking for.

It saves valuable time which in turn makes your business more profitable and less frustrating for you and your customers.

For more information, you can call me at 303-654-1195 or 720-341-2773.

Thank you for your suggestion.

We have added the following link to the Boat Design Directory:

Title : pdf achieves of the marine engines brochures  
URL : <http://www.engine-cemberci.com>  
Category : Propulsion/Engines  
Description : pdf achives of marine and industrial engines

You can see your new listing at: <http://search.boatdesign.net> as well as mirrored at <http://boat-design.net> , <http://boatdesigndirectory.com> , and <http://yachtdesign.info>

If you would like to have a priority listing please provide a reciprocal link to BoatDesign.Net with one of the icons provided at <http://boatdesign.net/linkus/>  
A simple text link to BoatDesign.Net is also perfectly fine and always very much appreciated.

We would also like to invite you to visit and join the discussion on our boat design and boatbuilding forums at <http://boatdesign.net/forums> Joining in the discussion is a good way to promote your web site too - remember to include your URL when you register for the forums in your user control panel so a web (www) link appears under each post you make. You can also include a brief signature to promote your web site, but please keep this reasonable and keep posts on-topic.

Finally, if you haven't seen our new gallery of boat design and boat building projects at <http://boatdesign.net/gallery> please take a look - if you have a design or boat building project which should be featured there, it only takes a few minutes to register, login and post a few pictures of your projects for everyone to see. You are welcome to provide a link back to your full web site in the description of any photos you post in our gallery.

Thanks for your support of Boat Design Net

Sincerely,  
The Boat Design Directory Team

Merhabalar

İlk önce web sayfanızın girişinde ki nostaljik resmi çok beğendiğimi söylemek isterim.

Uzun yıllardır "robin marka EY20" Teknemin motoru var ve son zamanlarda artık dayanamıyorum beni bakıma götür tamir etsinler demeye başladım☺)

Acaba siz bana yardımcı olur musunuz malum lüfer ve palamut zamanı da yaklaşıyor. Beni bunlardan mahrum etmeyeceğinizi umut eder tel ve e mailinizi beklerim.

Kendim Gebze de oturmaktayım motoru da söktüm arabamın bagajında sizden gelecek haberi beklemekteyim saygı ve sevgilerimle iyi çalışmalar,

### Motor Yatağı Revizyonu ve Onarımı

Türkiye'nin ilk ve entegre anlamda tek motor yatağı fabrikası olan ŞAHİN, yüksek ve sürekli kalite anlayışı, mühendislik birikimi ve tecrübesi, üretim çeşitliliği ve satış sonrası hizmet sunan tek motor yatağı markası olması ile otomotiv yedek parça pazarında özel bir konuma sahiptir.

ŞAHİN Türkiye'deki etkin bayi ağı sayesinde yedek parça servisleri, tamirciler ve motor yenileme atölyelerine; devlet ihaleleri yoluyla askeriye ve belediyelere motor yatağı tedarik etmektedir. Ayrıca 5 kıtada 40'dan fazla ülkeye ihracat yapmaktadır.

ISO 9001:2000, ISO TS 16949:2002 ve ISO 14001:2004 gibi otomotivdeki en üst seviyedeki kalite belgelerine sahip olan Firmamız, 8000 metrekarelik kapalı alanda, yılda üç vardiyada 22 milyon yarım yatak kapasitesi ile üretimini gerçekleştirmektedir.

Ürün gamı, binek ve hafif ticari araçlar, ağır ticari vasıtalar, tanklar, jeneratörler, iş makineleri ve her tür **deniz vasıtası** için ana yatak, kol yatak, kol burcu, eksantrik burcu ve ay yatak üretimini kapsamaktadır. Ürün verdiğimiz motorlardan bazıları aşağıdaki gibidir:

1. Lister Petter
2. Wartsila
3. Cummins
4. MTU
5. MAN
6. Mercedes
7. Sacm AGO
8. MWM
9. Ruston
10. Detroit Diesel
11. Caterpillar
12. Komatsu
13. John Deere vs. motorları için

### Gemi Yatakları Üretimi, Kaplama ve Revizyon Prosesi

Firmamız 2008 yılından itibaren Gemi Motorları yenileme sektörüne yeniden hizmet vermeye başlamıştır. Her türlü gemi motoru yataklarının üretimi ve tamirati (Kaplama vs.) en kısa sürede ve en kaliteli şekilde yapılmaktadır. Genel olarak uygulanacak prosesler hakkında aşağıda detaylı bilgiler yer almaktadır.

Alüminyum malzemeden imal edilen yataklara uygulanan daldırma kalay kaplama motorun ilk hareketinde krank milini korumak ve mile polisaj yapmak için uygulanmaktadır.

Bronz veya alüminyum alaşımli yataklara uygulanan 3. kat kaplama, krank milinin zamanla aşınmasından dolayı yağda bulunabilecek pislikleri, yumuşak özelliğinden dolayı kendi bünyesine gömerek krank milinin zarar görmesini engelleyici özellik taşır.

53 Yıllık tecrübesi ile Türkiye'nin lideri Şahin Motor Yatakları Fabrikasına revizyon için teslim etmiş olduğunuz ürünler bilgisayar kontrollü tam otomatik hatlarda 3.Kat kaplama alaşımları ile ilgili ürünün teknik resim standartlarına uygun olarak kaplanmaktadır.

Kaplama Hattımızda

Min : 32 mm

Max : 244 mm iç çap ölçüleri aralığında ve elektroliz yöntemi ile kaplama yapılmaktadır.

Çalışmalarınızda başarılar dileriz

Dear Sirs

A supplier of ours is about to close one of his warehouses.

Please have a look at the attached stock list and let us know, if you might be interested in some spare parts. Pictures and further details are available on request. We have been working with this supplier for several years and know his stock well.

The offered parts are genuine spare parts in very good conditions, some of them are even brand new due to the brake down office warehouse he is offering very good prices.

**Subject:** Bullet Motorsports Speedlab: Job Vacancy for you

**BMS, Bullet Motorsports Speedlab**, was originally founded to turn "ordinary" BMWs into the fastest race cars possible. BMS race cars have won numerous national championships over the past four years and BMS continues to promote club racing through its driver development program. From their intimate knowledge of the inner workings of BMWs, and countless hours of track time testing products in a high-stress environment, BMS technicians are highly skilled in tuning BMWs and Minis for street applications. There are many misconceptions in the aftermarket tuning industry. Our job is to separate the truth from the hype, for the benefit of our customers. Of course, tuning by itself is insufficient without full knowledge of servicing not only BMW components, but also the full range of aftermarket equipment from superchargers to stereos. There is nothing on your BMW or Mini that BMS can't fix - or if you desire, improve.

Today we have a chance to announce a vacancy of a Regional Financial Manager. This is a part-time job position; you will be required to be available 1-2 hours a day. The purpose of this position is to be a part of company internal operational cash flow and deal with the local customer payments in particular. You will specifically be responsible to:

- Coordinate customer payments using your bank account
- Monitor payment delivery thoroughly
- Immediately notify when any payment arrives and inform company head office
- Process customer payments via Western Union and Money Gram services to the company regional warehouses
- Ensure each customer payment is dealt with in a quick, polite and efficient manner
- Make records on each new coming customer payment into a database
- Establish and maintain constructive working environment, so that to ensure high-speed payment delivery, provide the customers with the fastest possible service and attract extra

This position reports to a supervisor or manager. You will be paid net 10% commission out of every customer payment you have to deal with, all the related expenses will be covered by the company.

BMS - European nicest car design dealership - is looking for motivated, energetic, charismatic individuals to help grow its potential and customer base. No experience is necessary. We will train the right individual. We do however require a great attitude and a healthy work ethic. Good 'people' skills are essential. Apart from that, you must be at least 18 years of age; proficient in Microsoft PC, with excellent communicational, organizational and interpersonal skills and ability to maintain composure during stressful situations.

With our track record of success, the diversity of work available and opportunities for promotion, travel and other benefits, BMS is an excellent choice for anyone seeking a job in a dynamic, rewarding and growing industry.

If you're ready to make a difference, and not just be "1 of a 100", join us. We offer a career that affords great challenges and job satisfaction.

If you show any interest in a position offered, please do not hesitate to visit our web-site for more information or fill in an on-line application form.

Gelisen ve değişen ticaret hayatı içerisinde markalaşmak, farklılaşmak, rakip firmalar arasından sıyrılarak sektör içerisinde bilinen ve tanınan öncu firmalar arasına yükselmek her geçen gün zorlaşmaktadır. Bu farklılığı belirlemenin yolu imalatınız için çalışmalarınızın ürünleri nizive ürün kalitenizi iyi bir sunuşla anlatmaktan geçer. İşte bu noktada Te Design sizlere çözüm ortağı olarak hizmet vermektedir. Proje temelli altyapı ile sizlerin imalatlarını kısa sürede kavrayarak ürününüzün tanıtımıyla ilgili gerekli çalışma ve senaryoyu animatif olarak kısa zamanda hazırlayabilen firmamız bu anlamda Türkiye'de profesyonel olarak sistemler üzerine görselleştirme hizmeti veren öncükuruluş olmanın gururunu taşımaktadır.

Bilindiği gibi fuarlar daha büyük pazarlara ulaşmak için yapılabilecek en iyi yatırımdır. Ürününüz hakkında tüm bilgileri verebilmek için ürünlerinizi fuar alanında sergilemekteyiz. Te Design olarak biz size bir alternatif sunuyoruz;

Gelin hiçbir nakliye ücreti vermeden, geniş fuar alanına ihtiyaç duymadan, makine veya sisteminiz için çek ölçülerinde fuar alanlarına taşıyalım sadece bir CD ile

ürünlerinizi demonte olarak mı naklediyorsunuz. Montaj için uzman mı gönderiyorsunuz. Gelin ürününüzün montaj animasyonunu hazırlayalım bu animasyonlarla ürününüzü dünyanın dört tarafına uzman ihtiyacı duymadan gönderin.

Ürün kalitesi kadar ürünü doğru kullanma da önemlidir. Kullanıcıya vereceğiniz eğitim için zaman kaybetmeyin. Kullanıcı ve operatörlere vereceğiniz eğitim animasyonu ile ürününüz kullanıcı hatası olmaksızın çalışacaktır.

Farklılığı yaratmak sizin elinizde. Çalışmalarımızı dünya dili olan görsel anlatım ile yapmamız ise sizlere ayrı bir avantaj sağlayacaktır. Her dil ve kültürde anlaşılabilir olmak ise ayrı bir kolaylık olacaktır. Ürünleriniz stokta veya showroomda bulundurulmayacak nitelikte mi veya sadece bir defa mı üretilecek, ürününüzü tanıtmak konusunda kataloglar, videolar, yazılar yetersiz mi yada size tanıtımın çok zamanını kaybettiriyor. Gelin sizlerle birlikte çalışalım görsel dili ve anlatımın avantajlarını sizlerle paylaşalım.

Dear Colleague:

In less than two weeks 2,000 guests will sit, stand, hunker over papers, talk quietly in the lobby, huddle together at exhibit stands all in the pursuit of business, new ideas and deals. For veteran CMA Shipping conference and Trade Show attendees these next two weeks are all about getting ready - printing cards, setting up meetings, completing proposals, putting the finishing touches on exhibit stands and presentation papers.

For those of you who have never been may we encourage you to make this the year: March 23, 24 and 25, 2009, Hilton Hotel, Stamford, CT.

Visit [www.shipping2009.com](http://www.shipping2009.com) for info on all aspects of the event and to register.

We sit in the vortex of all the planning so we are the fortunate witnesses to all the activity and planning. We know the amount of preparation that goes into our guests visit, the potential that exists for conducting business, sharing ideas and building deals.

Our job is to make the days you spend in Stamford, Connecticut as productive as possible. So whether you are coming to determine the course of markets, plan your company's operational practices in the combat of Piracy or emissions regulations, meet with the US Coast Guard, charterers, traders or brokers, there are seminar sessions, exhibits, and principals involved in it all here for you.

And, of course we have carved out time for building those relationships that make this industry so unique.

If we can assist you as you plan your visit please do not hesitate to contact us. We are committed to your success and look forward to doing whatever we can for that.

Sincerely,

**Subject:** Request for the Marine Gear, Twin Disc

Dear Sir/Madam

We have looked your website and thought that, by covering our demands it would be great pleasure for us to make a partnership with your company.

It is already 15 years that "Kaspianlab" acts as a supplier of the Laboratory, Marine and Oil industry scope in Azerbaijan.

The main policy of our company is just working directly with the manufacturer but not with any middle company. We make the partnership with a lot of companies from whole world. "Kaspianlab" is being the distributor of some famous companies such as: Ixsea(France), Marimatech(Danmark), C-Max(UK), C&C Technologies(USA),Applied Acoustics (England), Boerger (Germany), Vogelsang (Germany),TD-Yamz (Russia), Ural-Geo (Russia), Anod (Russia), H.Hermann Ehlers Gmbh (Germany), VN Pumpen (Germany), SyQuest inc (USA), QPS (Netherlands), Coda Octopus (UK), Sunair Electronics (USA), Bauer Compressors Group (Germany), GNR Analytical Instruments Group (Italy), Sokkia (Netherlands) etc. Many times we have done the business with Wartsila – Deutz (The Netherlands),Enraf N.V(Holland), Ashcroft (Germany), Metso Automation (Finland), Geotron (Russia),Amatec (USA), Trimble (USA), Kudu Industries (Canada),Geomil (Netherlands), ELE International (USA),Soil Instruments ltd(England), Thuraya (UAE), Wilhelmsen Maritime Services (Norway)etc. Currently, Azerbaijan market is really very potential. All social and economical scopes are developing day by day in Azerbaijan . Development of Azerbaijan requires the latest technologies and more than what we can do.

Regarding to all this we want make a good partnership in future and hope that mutual collaboration between our companies will develop in result of your supporting.

Some days ago, we received the request for the below mentioned products which are being your scope of supply:

**1. Reverse reducer n-2100/836 rpm with the reduction rate i-2, 48-1 ( SN: 3 x 1090 and 3 x 1092 with twin disc) Type/ code: MG-5202SC BOM #39766 - 2pcs.**

**We need this reducer for the Cummins CTA 19M3 engine Ne -514kW ; n-2100rpm ; SN: 37155599 , 37155633 ; Production year 1995 for the vessel "MAGIC - 1"**

With reference to this we would like you to provide us with your Commercial Offer for the appropriate products...

The commercial offer shall include technical information (datasheet, specification, and design criteria),commercial (price, discount) and other terms.

I hope that supporting with competitive prices and discount could be the confirmation of our order.

We appreciate your prompt response in advance and this dealing will be the start of the business relationship between your and our companies.

### Ship Operating Costs Annual Review and Forecast

Keeping the lid on operating costs A year ago, ship owners were both asset and cash rich. With rates on the floor the change-about has been severe; cash management is the new mantra and the need to minimise operating costs has never been more crucial... a whole new ball game for many managers.

Operating Cost Data sheets for all major vessel types:

• Tankers • Chemicals • LPG • LNG • Dry Bulk • Container • General Cargo • Reefer • Ro-Ro

Drewry's latest Annual Report offers an independent assessment of headline costs with five-year projections. Including:

• Manning and crewing • Insurance – H&M, P&I and others • Repairs and maintenance, including dry docking provisions • Stores, spares and supplies • Management and administration

**More and more shipping companies are discovering the benefits of Inmarsat FleetBroadband 150 - our broadband communications service for coastal vessels.**

Among the many success stories are two Germany-based shipping companies; Hansa Shipping, which fitted FleetBroadband 150 terminals on 34 of its container and construction vessels - that's over half of its European fleet, and Briese Schifffahrts which plans to self-install 100 FleetBroadband 150 terminals across its fleet of ships.

Using the same technology proven on deep-sea vessels, FleetBroadband 150 delivers uninterrupted, high-quality voice and simultaneous IP data and SMS messaging to coastal vessels when their voyages take them beyond land-based network coverage. The ability to stay in touch with clients, share data between vessels and HQ and to contact port prior to arrival ensures the operational efficiency of all commercial voyages.

What's more, we've solutions to suit any size of vessel. To find out more, simply [visit our website](#), and take a few minutes to [watch the video case study](#). That way, you can see for yourself what FleetBroadband can do for your company.

## Marine Sound Signals

### Kahlenberg To Introduce New IMO Type Approved Ship Whistles and Controls at SMM Hamburg Show

TWO RIVERS, WISCONSIN (USA)- Kahlenberg Industries, Inc. will introduce its new KM-DVM Series of Air Horns and the new M-611 Sound and Light Control for vessels over 75 Meters at the 2010 SMM International Trade Fair in Hamburg, Germany September 7-10, 2010.

Kahlenberg KM-DVM Air Horns feature a new external valve assembly and heated sound chamber that reduce weight, product cost, and

KM-200-DVM-H

installation costs while preserving the durability of all metal construction and the ability to operate in the most extreme weather conditions.

Allowing for concurrent A.C. and D.C. electrical control from both main and emergency power systems, and manual override capability, the new KM-DVM Horns include triple redundancy in the event of emergency onboard. In addition, the valve assembly can be adjusted for pressures of 5 to 40 bar (75-580 p.s.i.) without additional chokes, fittings, or regulators, reducing installation cost. With heating included in the valve and sound chamber of the KM-DVM Horns, the need for an external heated enclosure in temperatures as low as -40 C./F is eliminated, saving both cost and weight without sacrificing all metal durability of the assembly.

The new M-611 Signal Controller significantly improves safety by producing automatic sound and light signals required by IMO and SOLAS with a simpler, more user friendly control panel. Producing automated restricted visibility codes, maneuvering codes, general alarm, and abandon ship codes per IMO and SOLAS requirements, the M-611 controls multiple horns, morse light, ship's bell and gong, and can be configured for use with external alarm systems and sound surveillance systems to suit the needs of almost any arrangement of ship systems.

Bizler Sir Meccanica olarak çok amaçlı ve portatif makine ekipmanları üreten İtalyan firmasıyız. Bugün için Sir Meccanica mevcut olarak en iyi portatif makine ekipmanlarıdır. Ana yatak baralama da dahil olmak üzere tasnabilir özelliğinden oturu atolyelerde ve santiye sahalarında tüm özellikleriyle kullanılabilir. Dış kaynak işlemleri, merkezleme, delme, dış yüzey işleme, klavuz çekme, hlek ve halka kanalı acma, dış acma, ovalleşmiş tüm delikleri normal çapına getirme işlemlerinde ayrıca tüm koşullarda eksiksiz yerine getirmektedir. Tüm makine ekipmanlarımız tüm fonksiyonların geçerli olarak hizmet vermesi ve fonksiyonlarının optimize edilmesini sağlamak için tam donanımlı elektronik kontrol paneli ile imal edilmiştir. Bu yeni sistem sayesinde kontrol panelini Sir Meccanica'ya servis maksatlı olarak göndermeye gerek kalmadan ve hususi donanımlı tecrübe sahibi personele gerek kalmadan herhangi bir değişim mümkün olmaktadır. Tamamı ile yerinde birkaç dakika içerisinde herhangi bir ekipmana ihtiyaç duyulmazsın onarımı mümkün olmaktadır. Yanlış kullanıma bağlı olarak herhangi bir hata sinyali alındığı takdirde sizi çözüme ulaştıracak bir kod belirterek kullanım klavuzunun dikte ettiği şekilde bir açıklama getirecektir.

**REF: NATIONAL PETROLEUM AGENCY OF SAO TOME & PRINCIPE**

---

ATTN: CEO & Managing Director,

I wish to introduce to you this highly prospective crude oil sales venture. What do I mean? I propose that we become partners in a crude oil sales project under the umbrella of the National Petroleum Agency of Sao Tome & Principe, we will register either your company or a joint company with the local corporate affairs commission of Sao Tome & Principe: Re assign an already allocated crude oil sales license to the company & act as representative of the Petroleum agency in selling of crude oil to the end buyers.

I have assisted a company based in America to secure a crude oil sales license allocated in 2009. The Director of this company, Mr. Robert Russell could not actualize his dream in this project as he the sole owner of the company was unfortunately struck by stroke therefore incapable of involving in active business. I will package your company as the crude oil license beneficiary. We would re-assign the sale license earlier given to late Mr. Robert Russell to your company. This will give your company the authority to act as crude oil sales agent / representative for the National Petroleum Agency.

The assignment of the crude oil sales allocation to your company gives us the privilege to operate as the first lifter of the crude oil from the block. This attracts USD\$2.00 discount per barrel to the lifter. The USD\$2.00 is ours (lifter) entitlement from the petroleum agency. Also been able to get final buyers entitles us to USD\$1.00 discount from the discount given to end buyers as mandate. As we are going to be lifting 2 Million barrels per a month from the block. The USD\$2.00 discount from National petroleum agency sums up to USD\$4 Million per a month, and the USD\$1.00 discount from the end buyers comes to USD\$2 Million per a month. This total to USD\$6 Million gross coming to our group per a transaction in a month. On equity sharing ration, both of us will be netting a cool USD\$6 Million as profits monthly. These proceeds know as commission will be shared equally on equity between both of us at the end of every sales operational month.

This project is highly prospective and presently the most legitimate money making machinery someone can set up. What is so interest about the project is that your presence is not much needed, rather after the registration of your company and obtaining the crude oil sales license, we would connect buyers to the petroleum agency by any means we choose and our commission will be directed instantly to your nominated bank co-ordinates? I will be gladly appreciating your understanding & keen interest to be part of this moving train called CRUDE OIL SALES VENTURE.

Best Regards,

Engr. David Selebi (NPA).

**Aero Tec Laboratories** was founded in 1970 as a design and testing facility for "flexible composite" materials. Shortly thereafter, the firm broadened its scope to include the actual fabrication of end products from its own outstanding fiber/elastomer composites. From ambitious beginnings in engineered inflatables and crashworthy fuel cell bladders, ATL has further spread its technologies into compensators, accumulators, potable water vessels, self-healing ballistic tanks, space containerization, bulk storage bladders and scores of similar endeavors. The common thread among ATL's products is the seeming dichotomy of remarkable toughness and durability coupled with extreme light weight, high flexibility and compactness.

## **INTRODUCING DYNATITE® HIGH PRESSURE FOR PIPE & CABLE PENETRATIONS - TESTED TO 15 BAR**

The latest technology developed by Beele Engineering - specifically for critical areas such as penetrations from floods or blast.

Developed for use in columns of semi-submersible rigs.

Suitable where instantaneous tightness is required

Based on "dynamic" sealing – seal tightens under pressure

Conduit sleeves precision fabricated from stainless steel

Sleeves are passivated and have ceramic or PTFE coating

Accelerated aging proves 15+ years with no corrosion

Sleeve can be bolted or welded to structure

Bolt-on sleeves come with high-quality NOFIRNO® gasket

2-piece DYNATITE® plug inserts around service pipe/cable

Inside of sleeve and outside of plug are lubricated

Plug is inserted by hand, serration by serration, until seated

Current sizes will seal a single pipe/cable up to 50mm

Larger sizes currently in tooling stages

Multi-Cable / Multi-pipe version also available

**Visit our website or contact us for a full DYNATITE® catalog.**

Eski Marine motorlarınız ile ilgili dokumanları internet ortam nda yay nladığınız için öncelikle teşekkür ederim.  
Yoksa elimdeki jeneratör motorunun OM444 olduğunu tesbit etmem hayli zordu.  
Halen daha hangi güçte olduğunu bilemiyorum epey aradım ama ne jeneratörü imal eden İşbir makine da ne de üzerinde herhangi bir bilgi bulamadım.  
Om 444 serisi motorların bakım klavuzu nereden bulunabilir? Bilginiz varmı acaba?
