

## 5 HP SINGLE HORIZONTAL

The Kohler Command 5 horizontal shaft engine is more than just a powerful and efficient. Use it for law care, maintenance or crop-in replacement. Here the Command 5 is efficient, dependable and versatile.

Quiet smooth, you can be assured this with Command's quiet muffler, lightweight primer and counter weighted overhead.

The high energy electronic ignition generates a stronger spark at slower cranking speed. The Command's ignition, combined with automatic compression release, ensures dependable 100-4700 RPM starts.

The compact, slant-style design allows the Command 5 to fit most applications. A large 5 quart fuel tank extends running time between fill-ups, up to 60 hours in most applications.

Command's 25 percent greater displacement than other 5 hp OHV engines results in 15 percent less wear. This superior reserve power lets Command handle tag-along without engine stall. Kohler's optional Oil Sentry™ warns you if fuel level is low. Easy access to and drain features make changing oil a snap.
