

# PARPAC

**MARINEPOWER™**

*The Force Behind The Fun.™*

# MARINE POWER'S RUGGED PARPAC ENGINES, NOW IN STANDARD, PREMIUM AND PERFORMANCE SERIES.

Along the Louisiana Gulf Coast, Marine Power's reputation for reliable, long-lasting engines dates back 40 years. Customers' confidence and dependence comes from their Marine Power engines, designed to meet the rugged demands of their fishing.

Tubes, components and transmissions/bases across the industry have become more than a level of quality in Marine Power's complete line of engines. They get the same exceptional performance, a long list of needed features, and more choices.

Attention to customer engineering and supporting getting your choice. Marine Power makes the best investment in the industry today to support its name. Marine Power is proud to introduce its new line of ParPac Engines for 1995.

The Marine Power Performance Full Marine Base Engine PLUS complete systems and fuel systems. Built with the same GM Marine Marine Block, ParPac are constructed to last under working conditions in Marine Power's complete engine packages including

marine electronic exhaust systems, gear, ParPac, dual ParPac control units and your warranty on both your ParPac.

Perhaps that's why more and more boat owners looking for an economical alternative are getting their dealer for Marine Power ParPac. Look over Marine Power's complete line of best working engines and high price discounts. Start on why Marine Power is quality. Technology makes sense in the marine engine industry—the best behind the bar.

*"Marine Power is a people company dedicated to marketing your boating experience through higher standards of value, service and performance in marine propulsion."*
