

IRINS DEUTZ DIE-COOLED MARINE DIESEL ENGINES

THE MARINE'S IDEAL ENGINE

Deutz engines have been the industry standard for decades because of their ruggedness, reliability and performance. They are designed to last and are built to meet the toughest operating conditions. Deutz engines are available in a wide range of configurations and power ratings. They are also known for their excellent fuel economy and low maintenance requirements. Deutz engines are a proven choice for marine applications, providing reliable power for years to come.

Key features include:
• Compact design
• Low maintenance
• Excellent fuel economy
• High reliability

HP/HP DEUTZ

PERFORMANCE, POWERED BY COMMON RAIL SYSTEM

Deutz TCD 2.9 L6 CR Common Rail engine is a 6-cylinder, 2.9 liter, 100% common rail engine. It is designed for high performance and low emissions. The engine is equipped with a common rail system, which allows for precise fuel injection and optimal combustion. This results in high torque and power output, even at low RPM. The engine is also equipped with a turbocharger, which further enhances its performance. The TCD 2.9 L6 CR is a reliable and durable engine, suitable for a wide range of applications.
