RENN TECHNO GmbH **Power Transmission Engineering**

Manufacturing Facilities and Products

RENN TECHNO GmbH has developed from a specialist of power transmission engineering to a full-service manufacturer and provider of turnkey solutions for the power transmission industry. The company is based in Wehring, Germany (E.ON).

Through its products of the rope and cable systems of steel wire and aluminum alloy there are applications in all three application areas: from suspension and the transport systems.

The products being tested at the technology facilities include suspension lines for 200 kV up to 1000 kV and available wire steel ropes for suspension lines and steel wire ropes. Cable supports is supported by high grade steel and aluminum alloy and light alloy fittings.

RENN TECHNO GmbH works out complete solutions from design to engineering, manufacturing with a total project management, transportation to the site and complete erection.

Further services – including installation and maintenance of all steel – aluminum alloy cable systems of 200 kV up to 1000 kV are provided by RENN TECHNO GmbH. Further services include the design and construction of steel wire, aluminum alloy and steel cable systems, steel and steel alloy systems, steel and steel alloy systems, steel and steel alloy systems, steel and steel alloy systems.

Manufacturing facilities:
- 10000 m² production facility
- 2000 m² test facility

The 10000 m² production facility RENN TECHNO GmbH's complete production facility for steel and aluminum alloy cable systems in the design and construction of steel wire, aluminum alloy and steel cable systems, steel and steel alloy systems, steel and steel alloy systems, steel and steel alloy systems, steel and steel alloy systems.

1 The manufacturing facilities in Augsburg

2 The manufacturing facilities in Bonn

1. Industrial gear with vertical flange, planetary gear with 100 teeth and 1000 rpm.

2. Industrial gear with planetary gear, planetary gear with 100 teeth for high speed gear.

3. Industrial gear with planetary gear, planetary gear with 100 teeth, planetary gear with 100 teeth.

4. Marine gear with timing belt, planetary gear with 100 teeth.

5. Marine gear with belt, planetary gear for long life.

6. Marine gear with planetary gear, planetary gear with 100 teeth, planetary gear with 100 teeth.

7. Small planetary industrial gear with planetary gear, planetary gear with 100 teeth.

8. Small planetary industrial gear, planetary gear with 100 teeth, planetary gear with 100 teeth.

9. Industrial gear, planetary gear for planetary gear, planetary gear.
